

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Rochester is especially suited for entertaining conventions, having hotel accommodations for 2,000 visitors, and unexcelled railroad facilities.

Rochester is nearer the coal fields of Pennsylvania than any other large Northern city, hence cheap fuel is always assured.

Being the county seat of Monroe county, the garden spot of the world, living is exceptionally cheap.

Water supply practically unlimited and pure, two conduits bringing 22,000,000 gallons daily to Highland Park reservoir from Hemlock Lake, 29 miles distant.

Assessed valuation, 1902—Real, \$104,636,500; Personal, \$6,272,300. Franchise, \$4,716,140. Total, \$115,624,265. Tax levy, 1902, \$2,000,000. Tax decimal, \$17.37.

Lake Ontario and the Erie Canal afford cheap shipping facilities by water.

Death rate exceptionally low, owing to purity of water supply and first-class system of sewerage.

## EXPLANATORY NOTE.

---

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 501 comes: look at State street and you find that Jay street runs from 478 left side, and Smith street from 559, showing that No. 501 comes on the left side of State street between Jay and Smith streets.

Or, going up West avenue, suppose it is wished to take a cross street so as to call at 312 Troup street; on examination, (see Troup) you find that 308 Troup is at the corner of Reynolds street; hence, by passing from West avenue through Reynolds street to Troup, you are near the desired number 312. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Street numbers begin at the end of the street nearest the centre of the city. Even numbers are upon the north or east side of streets. Odd numbers are upon the south or west side of streets.

Number of streets in city, 970; length, 325 miles; number of alleys, 107; length, 17 miles.
